

Current and Pending Support

Key Concepts:

- Sponsors generally utilize the current and pending support document for two purposes: 1) To ensure that an individual is not overcommitted (i.e. the sum of their effort commitments does not exceed 100%); and 2) To determine whether the proposed scope of work overlaps with other projects in the individual's portfolio and resolve the overlap, if necessary.
- The sum of an individual's current and pending effort commitments (expressed as a percentage) may not exceed 100%.

NIH: Other Support form

- Format page example: <http://grants.nih.gov/grants/funding/phs398/othersupport.pdf>
(may be downloaded as a Word doc at <http://grants.nih.gov/grants/funding/phs398/phs398.html>)
- Not submitted with proposals – required at the time that JIT information is requested
- When requested, Other Support must be submitted for each PI and all individuals listed as Key Personnel
- Do NOT include the proposed project (nor its predecessor, if the proposal is a competing continuation)
- For each project listed, include only the annual (or current year) direct cost total
- Effort is expressed as person months
- A short description of each project should be included and overlap with the proposed project, if any, should be addressed
- Process for submitting:
 - Upload Other Support to the eRA Commons
 - In WISPER, attach request for JIT from NIH, and send a "JIT Request" Approval to your CALS preaward contact
 - CALS will complete review and submission of the information via eRA Commons

NSF: Current and Pending Support

- Format page example: <http://www.nsf.gov/pubs/2000/00form1239/00form1239.pdf>
OR data may be entered directly into the form via Fastlane
- Include with proposal submission
- Required for each PI and all individuals listed as Senior Personnel
- DO include the proposed project
- List the total amount (direct and indirect costs for the entire award period) for each current or pending project
- Effort is expressed as person months

USDA-NIFA: Current and Pending Support

- Template can be downloaded at: <http://www.csrees.usda.gov/funding/electronic.html>
- Include with proposal submission
- Required for PI and co-PI's. Requirement for senior/key personnel varies by RFA – read guidelines carefully for instructions.
- DO include the proposed project
- List the total award amount (direct and indirect costs for the entire award period) for each current or pending project
- Effort is expressed as a percent

Summary of requirements, listed by agency:

	NIH	NSF	USDA-NIFA
Submitted with Proposal?	No. only at time of JIT	Yes	Yes
Persons to be reported?	PI and all key persons	PI and all key persons	PI and co-PI(s); read instructions re: key persons
Include the proposed project?	No	Yes	Yes
Award amount?	Annual or current year direct cost	Direct and indirect cost for the entire award	Direct and indirect cost for the entire award
Effort expressed as?	Person month	Person month	Percentage
