

FFA Meat Judging Contest

Use of Meats Contest Score Sheets

BE SURE TO BUBBLE IN ALL OF YOUR ANSWERS

1. Write out and bubble in your name starting with your last name first.

IMPORTANT: Please note that your team and school ID numbers will already be coded and bubbled in on the scantron sheet that will be handed out to you before the contest starts.

2. Ranking Classes:	<u>Class</u>	<u>Questions</u>
Beef Carcasses	1	1-5
Pork Carcasses	2	6-10
Lamb Carcasses	3	11-15
Hams	4	16-20
Beef Retail	5	21-25
Pork Retail	6	26-30

- Under the section titled “Placing Classes,” for each class, locate your placing from among the 24 choices listed and fill in that circle under the correct class number according to the chart above. * You can have the same placing for more than one class.
- Answer the questions for each class under the section labeled “Questions on Placing Classes.” Locate the 5 numbers that go with the class and fill in your answers.

3. **Beef Carcass Grading:**

- “Beef Carcass Quality Grading”
 - Determine the quality grade for each carcass and fill in the corresponding circle in the row for that carcass.
- “Beef Carcass Yield Grading”

KEY: .0-.3 High
.4-.6 Average
.7-.9 Low

- Determine the yield grade for each carcass, and then fill in either high, average or low under the correct yield grade number column. For example, if carcass 1 had a yield grade of 2.4, you would fill in the average circle under the 2 column in row 1.
 - Rows correspond to carcass numbers; columns correspond to yield grade scores.
4. For the **labeling exercise**, you will use the section labeled “Written Test”. There are 10 multiple-choice questions, so use 1-10 to fill in your answers.
 5. For **the consumer quiz**, you will use the section labeled “Written Test.” There are 10 multiple choice questions, so use 11-20 to fill in your answers.

6. **“Meat Identification-Retail Cuts”**

- For retail cut identification use Nos. 1-30 on the “Meat Identification-Retail Cuts” form. Fill in the species, primal, and retail ID codes as given on “Retail Cut Identification” key.
