<b>Uganda</b>	International Health and Nutrition	January 2008	3	100	1,980	2,160	<b>4,240</b>

<sup>1/</sup> Short-term programs are study tours conducted by UW faculty. Participants must be currently enrolled in a degree program. Some programs require consent of instructor and enrollment in a course.

<sup>2/</sup> Non-refundable application fee must accompany each application. If applicant is not selected for program, the fee will be refunded.

<sup>3/</sup> The Program Fee is a fixed cost which includes such items as academic expenses, orientation program, social and cultural programming, mandatory health insurance, in-country travel and administrative expenses. Program Fees vary by program and are adjusted annually. Program Fees are payable to the CALS Study Abroad office.

<sup>4/</sup> Student Expenses are estimates based on the experience of previous participants. They include such items as pre-departure expenses (passport, visa, immunizations, international travel, books, personal expenditures, etc.). Extensive travel, fluctuations in exchange rates and variations in student lifestyles will affect actual costs.
